**Excellent teachers are needed now more than ever, and the job outlook is strong nationwide. According to the U.S. Bureau of Labor Statistics, the demand for middle school and high school teachers is projected to grow four percent. Graduates will have the opportunity to fill over one million jobs nationwide.**

Discover the possibilities of a career in education with Tiffin University. Our program emphasizes hands-on learning, innovative instructional methods and effective techniques to work with a variety of students. You can choose from three concentrations: middle school science, adolescent to young adult (AYA) integrated social studies or middle school history.

TU students can also create a foundation with our history with licensure in middle school education concentration. This program's credentials are for teaching grades 4-9.

Our history with licensure in integrated social studies (AYA) education concentration explores the social, political, economic and religious past that shaped our world. Teach the tales of our ancestors in the classroom with students in grades 7-12.

If you have a passion for science and learning, our science with licensure in middle school education concentration is for you. You will learn how to create a foundation for students' future with an array of TU science classes that bridges the gap between content and the love of the field. This program's credentials are for teaching grades 4-9.
