

**BACHELOR OF
CRIMINAL JUSTICE AND
SOCIAL SCIENCES**

CRIMINAL BEHAVIOR

The Bachelor of Criminal Justice in Criminal Behavior degree is designed to provide students with an understanding of unlawful behavior that extends beyond the yellow police tape. Students will be provided the education to work in fields such as prison systems, rehabilitation centers, police departments, courthouses, law firms, schools, government agencies or the private sector.

Individuals with this degree may also work in areas dealing with important legal activities that involve adults and minors. Students will study diverse areas of criminal behavior and come to understand common traits among offenders and how the justice system manages such individuals.

The major has a foundation of forensic psychology, with an emphasis on offender behavior as a focus of criminal activity. This is especially important for students who intend to work in main areas of the criminal justice system.

We will provide you with a solid background for a successful career in criminal justice. Our coursework will further differentiate you from other candidates:

Criminal Behavior Major: 48 hours
Two Open Electives: 6 hours
Total Bachelor of Criminal Justice: 121 hours
